

IF GOD? IMPOSSIBLE FOR EVOLUTION

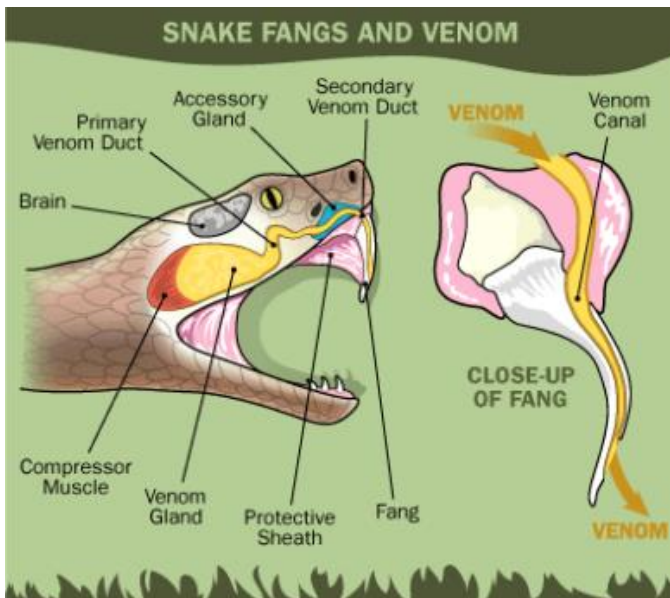

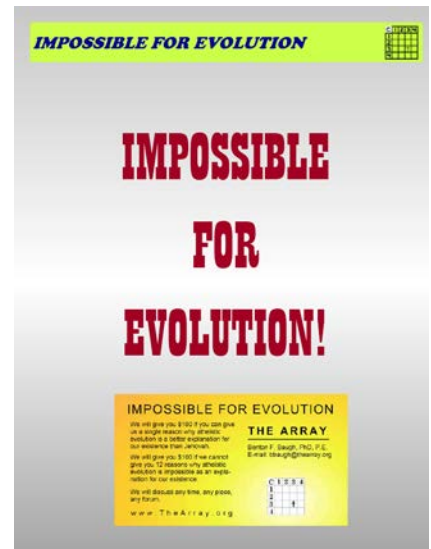

SUMMARY: A free book PDF or purchased hard copy titled IMPOSSIBLE FOR EVOLUTION provides 100 pages of information including more than 70 items impossible for atheistic evolution to achieve.

The subject of Impossible for Evolution is covered in the book IMPOSSIBLE FOR EVOLUTION. This book is available as a free download by going to the website www.occginstitute.org and signing up for the mailing list. As an alternative, you can go to the tab BOOKS on the same website and purchase the book.

The book is 100 pages of color information with the bulk being one-page examples of things which are impossible for evolution to do.

The figure below of a poisonous snake is an example. In this case a zero I.Q. snake must develop a poison which will kill you, but does not hurt him. It must invent a pouch to put it in. It must invent a delivery method, in his case a tooth with a hole in it (what we normally call a cavity). It must invent a connecting primary venom duct to

get from the gland to the tooth, must design a valve to control the flow, and must develop the brain programming to know when to release the poison. It does no good for the snake to develop a poison one year and “evolve” a tooth with a cavity in it a million years later. Each of these things which are impossible for the snake to do must happen at the same time. The book contains more than 70 examples like this, along with other information.

The yellow business card shown on the book cover has been passed out to dozens of atheists for more than 25 years challenging them to refute this information.

We can get no takers. If anyone believed evolution to be true and could disprove that there are numerous examples of what is impossible for atheistic evolution to do, they would tell us at their first chance.

IF GOD?

IMPOSSIBLE FOR EVOLUTION

There are several sections in the book, each of which can take several weeks to discuss for some groups, and not much time for other groups.

OUTLINE OF BOOK

- P. 4 PREFACE
- P. 5 INTRODUCTION
- p. 8 WHAT DOES IMPOSSIBLE MEAN
- P. 12 START OF IMPOSSIBLES
- P. 82 WHAT EVOLUTIONISTS ARE GOING TO TEACH YOUR CHILDREN
- P. 86 WHAT IS OUR ANSWER TO EVOLUTIONIST'S CLAIMS
- P. 92 MISCELLANEOUS DISCUSSIONS
- P. 99 CONCLUSION

IMPORTANCE OF THIS TOPIC:

Many of our older members presently associate primarily with other like-minded individuals and so this subject may not seem particularly relevant to them. All of our older members have children and/or grandchildren who face others who differ on these issues and need to have information to support the reasonableness of their beliefs in God.
