

# **WHICH GOD?**

## **ARRAY OF GODS QUESTIONNAIRE**

**SUMMARY:** A questionnaire to collect objective information about various religions.

In the last section, we concluded that the heavens and the earth must have been the work of a supernatural being(s). In this section, we will attempt to identify who the supernatural being(s) is. We will attempt to compare proposed supernatural beings and/or religions by a common set of criteria to assist in this process. In each case, list book and section of the location of the appropriate teachings. Some of the questions are stated in the negative to give an appropriate positive answer for the better result.
